Re: Treatment By Generator Request For T Plant, Dated February 20, 1992

Dear Mr. Wisness:

We have received your letter to Mr. Dave Jansen, dated February 20, 1992. The letter transmits the revised Treatment by Generator request for T Plant. Your letter misrepresents Ecology's involvement in this regulatory matter. I would like to correct you by informing you that Mr. Paul Stasch, of my staff, had initiated work on the petition in early February. He specifically requested, of the T Plant staff, a site visit in order to responsibly process your request. He was denied the opportunity to view the tanks of concern, however, he performed the site visit, in spite of the denial, on February 13, 1992.

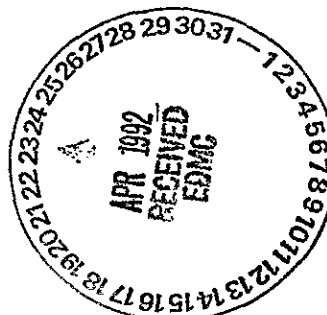

Your staff and the staff of Westinghouse are aware who the Ecology Unit Manager is for this and all other Treatment by Generator petitions. In the future, I would appreciate a copy of all correspondence relating to these petitions be sent to Mr. Stasch. Accuracy is paramount, especially when entering the correspondence into the Administrative Record. If you have any questions or comments, please direct them to Paul Stasch at (206) 459-6725.

Sincerely,

Toby M. Michelena
Permitting Unit Supervisor
Nuclear & Mixed Waste Management
